

## Product Code

**ECT96B-2400**

- ◆ Glass type
- ◆ Sizing code
- ◆ Linaer density (Tex)

96B is a type of assembled roving produced from fluorine-free and boron-free ECT glass. It has a delicate silane based coupling agent, which is compatible with UP resin. It is suitable for transparent panel process and can be used for decorative or structural materials in construction.

Product Feature	Technical Index					
<ul style="list-style-type: none"><li>● Good dispersion</li><li>● Fast wet-out</li><li>● High FRP transparency</li></ul>	Sizing type	Linaer density	Filament diameter [μm]	LOI [%]	Moisture content [%]	Stiffness [mm]

Packaging & Storage

Packaging	Bobbin weight[kg]	Bominal size of bobbin[mm]		Number of bobbin per pallet[个]	Pallet size[mm]	Net weight of pallet[kg]
pallet packaging	15-20	Inside diameter	Outside diameter	48	1140*1140*940	720-960
		152/162	285	64	850*500*1200	960-1280
<p>It is recommended to store glass fiber products in a cool, dry are with temperature being controled between 10-30°C and humidity between 50-75%. The glass fiber products must remain in their original packaging. The pallets are stackable, maximum 2 levels.</p>
